# Introduction

# 4

New Loops presents: Universal – 115 Dune 3 presets. Universal is the new sound bank for Synapse Audio Dune 3 and takes full advantage of the new features and effects.

115 expertly crafted presets cover a wide range of styles and includes hard modern basses, deep evolving pads, wide cutting leads, punchy plucks, beautiful analogue keys, inspiring sequences, and lots more.

You'll find cinematic pads and arps, trance sequences, deep house basslines, drum and bass synths, classic house and techno chords, huge synth keys, and creative sound effects.

All presets are named, categorised, and have patch information with tips on use. Every preset uses the modulation wheel, with everything from subtle tone adjustments to completely transforming the sound.
