

 NEWLOOPS

# ENTER THE HIVE

1.5

A person stands on a dark beach at night, looking up at a large, glowing, teal-colored cube floating in the sky. The cube is filled with a starry, nebula-like pattern and has bright teal light trails emanating from its base. The background features dark, jagged rock formations and a dark sky with scattered stars.

# Introduction

New Loops presents Enter The Hive 1.5 update. 80 heavy, aggressive, and dirty Hive presets for harder bass genres like drum and bass, dubstep, trap, dark electronica, and bass house. You'll find 25 twisted basses ranging from rolling Reeses and cone crushing subs to modern wobbles and terrifying distorted modulations.

20 chord, pad, and string presets include some familiar classic sounds and some unexplored territory. 15 sound effects include dubbed out LFO's, sirens, noise sweeps and pitch risers. 20 synth presets feature neuro leads, lofi arps, plucky keys, squelchy synths, and hard leads.

## **What's new in this update?**

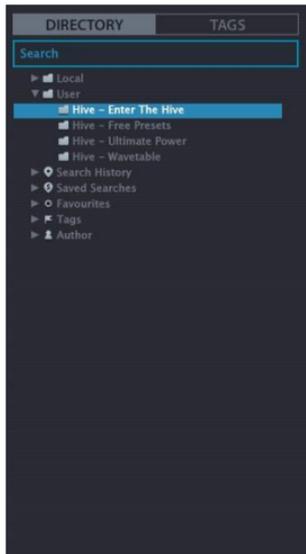

We've updated this sound bank to use Hive's new preset browser and all presets are now tagged. You'll also find NKSF versions for Native Instruments Komplete Kontrol software. The presets have also been tweaked slightly including the pitch, volumes, and some effects amounts so make sure you backup any old versions – update at your own risk!

# Installation

Installing this sound pack is easy. Simply download the zip file and unpack. You can then move the entire folder to your preferred place on your hard disk. Please keep a backup copy of your sound pack.

To install the presets in HIVE, first open Hive's preset browser and right-click on "User" from the list on the left (as shown), then select "reveal" in Finder (Mac) or "open" in Explorer (Win). This is the folder you should add this sound bank too. See Hive's user guide for full details.

**Please note:** Requires U-he HIVE version 2 or later and may not work with earlier versions.

# New Loops

New Loops is an English sound design label publishing audio sample packs and synthesiser presets in the pro audio market. With a focus on quality and usability, New Loops sounds are used by DJs, producers, music studios, and composers all over the world.
