Introduction

4

New Loops presents Drum and Bass Construction Kits – everything you need to make chart topping drum and bass! Get over 400 sounds spread across 4 full audio construction kits including, loops, one-shot samples, and midi files.

You'll find a total of 310 one-shots (including multi-samples and loops tails), with everything from vocals, basses, and drums, to synths, pads, and sound effects. There's also 96 Drum and Bass loops including, full drum loops, breaks, percussion, hi hats, synths, melodies, basslines, and more.

We've also included some loop tails for seamless transitions, and to give you more flexibility the audio loops have variations such as, full loop, kickless loop, kick and snare loop, hi-hats etc... you can easily layer loops to build your track.

As well as the 4 main construction kits we've also included a load of bonus Drum and Bass samples including, backing pads, synths, sound effects and bass samples!

All sounds are individually named and have the bpm and key in the file names. Tempos range from 172 to 174 bpm and all sounds are 24-bit/44.1 kHz. This pack includes every sound in the audio demo.

Installation

5

Installing this sound pack is easy. Simply download the Zip file and unpack. You can then move the entire folder to your preferred place on your hard disk.

Please keep a backup copy of your sound pack.

Please note: These audio files are in wav format and are available to use in any audio software and hardware that supports the standard wav format.

New Loops

6

New Loops is an English sound design label publishing audio sample packs and synthesiser presets in the pro audio market. With a focus on quality and usability, New Loops sounds are used by DJs, producers, music studios, and composers all over the world.
